

PARKVIEW TRAUMA CENTERS

11109 PARKVIEW PLAZA DRIVE
FORT WAYNE, IN 46845 | 260-266-1270

AMERICAN COLLEGE OF SURGEONS
Verified Trauma Center

2024

Verification

- Verified by the American College of Surgeons as a Level II Trauma Center in May 2000
- Verified as a Pediatric Trauma Center in 2003
- Parkview Adult and Pediatric Trauma Centers reverified in 2003, 2006, 2009, 2012, 2015, 2018 and 2022

Specialties and Services:

A total trauma system for injured children and adults:

- Team of trauma surgeons (board-certified in both critical care medicine and general surgery)
- Trauma advanced practice providers and nurse extenders
- Trauma epidemiologist
- Orthopedic trauma specialists
- Emergency physicians
- Neurosurgeons
- Radiologists
- Anesthesiologists
- Cardiovascular surgeons
- Plastic surgeons
- Pediatric surgeons
- Pediatric intensivists
- Samaritan Flight and Ground Transport Program
- Trauma-trained nursing staff
- Surgical Trauma ICU
- Pediatric ICU
- Trauma Services Department

Interesting Facts:

- Parkview Trauma Centers treat all trauma patients regardless of age.
- Parkview has special research interests in:
 - Hip fractures
 - Emergency Room length of stay
 - Massive transfusion
 - Difficult Airway Response Team
 - Mass casualty response
 - Pediatric trauma and maltreatment
- The Trauma team actively presents/publishes scientific analysis of trauma care at national conferences and in national journals.
- The Trauma team provides annual adult, geriatric and pediatric trauma symposia, as well as training opportunities throughout the year enabling pre-hospital and hospital-based providers to maintain/build trauma care knowledge and skills. Other outreach and education provided includes the Rural Trauma Team Development Course (RTTDC), Advanced Trauma Life Support (ATLS), advanced trauma care for nurses, trauma simulation and mass casualty simulation.
- The Parkview Trauma Program has been leading the way in injury education, outreach and leadership. They championed the development of the Trauma Regional Advisory Council for District 3 in 2017, they serve in leadership roles in various regional, state, and national trauma committees, and Lisa Hollister serves on the Board of Directors for the Trauma Center Association of America, the Indiana Trauma Commission, Healthcare Coalition District 3, and Fort Wayne Trails.

Statistics *(Based on 2022 data)*

Total number of admitted trauma patients: 2,775

Parkview Samaritan transported about 27% of major trauma patients.

58% of trauma patients were transported directly to the trauma center from the scene of the injury.

68% of admitted major trauma patients were male, with an average age of 43.

Car-related injuries/crashes were the number one cause of major trauma admits (28%).

Only 3% of admitted trauma patients had penetrating injuries (such as gunshot wounds).

History:

- Trauma Services was developed at Parkview Hospital in 1989 with the goal of achieving verification as a Level II Trauma Center by the American College of Surgeons.
- Parkview Trauma Centers is led by Raymond Cava, MD, FACS, Trauma Medical Director; Medical Director, Surgical Trauma ICU; Pediatric Trauma Medical Director and Pediatric ICU Co-medical Director, Parkview Regional Medical Center; Acute Care/Trauma Surgeon, PPG – Trauma & Acute Care Surgery and Lisa Hollister, DNP, MSN, RN, director, Trauma and Acute Care Surgery.
- As part of verification requirements, the centers have developed and continue to expand trauma prevention programs – Don't Drink and Drive, Don't Text & Drive, Teen Driver Safety, Share the Road, Helmet Safety, Know Falls and child maltreatment reduction
- In March 2012, with the opening of Parkview Regional Medical Center in northern Fort Wayne, Parkview Trauma Centers moved to this state-of-the-art facility.
