## Parkview Women's and Children's Midwife Model

PPG - OBGYN Certified Midwife Team

Parkview's certified nurse-midwives offer expert care throughout women's various life stages, specializing in holistic pregnancy support within a hospital setting. Their comprehensive services include gynecological exams, family planning, STD treatment, prenatal care, labor support, newborn care, menopause care, and emotional support. Certified nurse-midwives prioritize both the physical and emotional well-being of mothers, providing personalized care from pregnancy through delivery and beyond.

### Midwife Services in Northern Market

Midwives from Allen County practice in the PPG-OBGYN, Auburn clinic every Wednesday. They offer full prenatal care, with deliveries taking place at Parkview Randallia, including the option for water births.

Patients can also receive pregnancy ultrasounds, ensuring thorough prenatal monitoring. Beyond prenatal care, the midwives provide a range of women's health services, such as annual wellness visits, STD screenings, menstrual concerns, and family planning.

### Midwife Services in Southern Market

Our midwives, Shelly Boone, CNM and Alisa Felke, CNM offer comprehensive OB/postpartum and GYN care, including pregnancy support, postpartum care, STD testing, birth control options, and well-woman exams. We ensure that one of our midwives is available in Huntington every weekday, with Shelly also providing care in Wabash on Mondays and Thursdays.

Our team collaborates closely with Dr. Kevin Stamm and Dr. June Pollydore, and we deliver at Parkview Huntington, sharing call responsibilities equally. We are committed to providing compassionate and thorough care to support the health and well-being of our community.

Shelly Boone, CNM and Alisa Felke, CNM

## Parkview Heart Institute: Enhancing Cardiovascular Care Through Comprehensive Outpatient Clinics

As highlighted in our February newsletter, Parkview Heart Institute remains steadfast in advancing cardiovascular health by developing specialized outpatient clinics.

In our clinics, a dedicated team of providers and healthcare professionals address a wide spectrum of cardiovascular conditions for referred patients. We are eager to collaborate with you to enhance the quality of life for your patients through specialized care.

Three other sub-specialty clinics for Hypertension, Lipid and AFib require specific requests for following criteria and ensure testing is completed prior to the appointment to facilitate the highest value of care for patients.

## PPG Specialty Updates
